

What to gather before you start

A short list of the things only you can provide. Everything else we handle for you.

For Chery Gimps Application NYPD Carry Guard Sponsor ISS Action, Inc. About 30 minutes to pull together

This is everything we need you to **find and have ready** before you start.

IDENTITY

A clear photo of each. Both sides where there are two.

☐ **Your photo ID** **MOST IMPORTANT**
Driver's licence, State ID, or passport. **A passport is the easy one** — it proves your identity, your date of birth and your citizenship all at once, so if you have one, start there.

☐ **Proof of your date of birth**
Your passport or birth certificate. Skip this if you're sending a passport above.

☐ **Proof you're a citizen or lawful permanent resident**
Passport, naturalisation certificate, or green card. Skip if your passport covers it.

☐ **Your Social Security number**
Have the number to hand — you won't upload the card. We use it only to fill in the forms and never store it. Bring the original card with you to your NYPD appointment later on.

WHERE YOU LIVE

☐ **Proof of your NYC address**
A current **electric, gas, cable/internet or landline** bill showing your full name and address. **A cell phone bill will not be accepted** — that one catches most people out.

☐ **Or, if you don't have a utility bill in your name**
Your lease, or co-op/condo ownership paperwork, together with a signed and filed New York State tax return showing the same address.

YOUR SECURITY GUARD CREDENTIALS

You already have these from your unarmed registration. Photos or scans are fine.

☐ **NYS security guard registration card** **BOTH SIDES**
Front and back, both clearly readable.

- ☐ **8-hour pre-assignment training certificate**
- ☐ **16-hour on-the-job training certificate**
- ☐ **Your most recent annual 8-hour in-service certificate**
This one needs to be current. If yours has lapsed, tell us now rather than later — it affects the whole timeline.
- ☐ **Any firearm licence or permit you already hold** **IF YOU HAVE ONE**
Any state. If you don't hold one, there's nothing to send — just let us know.

PEOPLE WE'LL NEED TO CONTACT

You give us names and emails only. We send each person their own private link, and we chase them until it's done. You don't manage any of it.

- ☐ **Two people who'll vouch for you**
Full name, email and phone for each. They must be lawful U.S. residents and **not related to you**. Ask them first — each will need to sign a short letter in front of a notary.
- ☐ **Everyone aged 18 or over who lives with you**
Name, email and phone for each. Each signs a short statement, also notarised. If you live alone, tell us — there's a different, simpler form for that.
- ☐ **The person who'd look after your firearm**
Name, address, relationship to you, phone — and a photo of their ID. This is who takes custody if something happens to you. They must live in New York State. **Ask them before you put their name down.**

TWO LISTS TO WRITE DOWN

- ☐ **Everywhere you've lived in the past five years**
Addresses with rough move-in and move-out dates. Approximate months are fine.
- ☐ **Everywhere you've worked in the past five years**
Employer names, addresses and rough dates.

You don't need these yet. Your lifetime driving record, your passport-style licence photo, and the firearms training all come later — and we walk you through every one of them inside the platform, with the exact steps. Please don't try to sort them out in advance.

PHOTOGRAPHING DOCUMENTS

Lay it flat in good light, get all four corners in frame, and check it's readable before you send. A phone photo is fine — a blurry one costs you a week.

IF SOMETHING'S MISSING

Send what you have and tell us what you don't. We'd far rather start and work around a gap than have you wait until everything is perfect.
