

What we need from ISS Action

The company records we can't produce ourselves. Short, and mostly things you already hold.

For Pamela Newman Company ISS Action, Inc. Applicant Chery Gimps NYPD Carry Guard

This is what we need from ISS Action to open the file. It is short by design — the forms themselves we prepare and pre-fill for you inside your portal. What we can't produce is anything that lives in your company records, so that is all we're asking for here.

START WITH THIS ONE

- ☐ **Your NYPD gun custodian — name, contact and NYPD licence number** **MOST IMPORTANT**
This decides whether the application can proceed at all. Under 38 RCNY § 5-06 a security officer may only apply once their employer holds a gun custodian licence, and the application is made with documentation the custodian provides. If ISS's armed work runs through federal contracts rather than an NYPD licence, tell us before anything else — the route would be different.

COMPANY LICENSING

- ☐ **NYS Watch, Guard or Patrol Agency licence**
A copy, plus the licence number and expiry date. **Please take these from your records rather than a public listing** — a wrong number on a notarised form means a rejected filing.
- ☐ **Exact legal company name, and any DBA**
As it appears on the licence, not the trading name you'd use in conversation.
- ☐ **Business address, telephone and type of business**
The address on file with the State.
- ☐ **President or principal owner, and qualifying officer**
Names as they appear on your filings.
- ☐ **Who is authorised to sign**
Confirm whether you sign the company application yourself, or whether the gun custodian signs it personally. It changes who we need in the portal.

THE SPONSORED POSITION

Details of the role you're sponsoring Chery for. We turn these into the letter of necessity and the supporting paperwork.

- ☐ **Job title and assignment site**
Where he'll be posted, or the assignment type if it varies.
- ☐ **Confirmed hours per week**
The NYPD requires at least 20 hours a week for a Carry Guard sponsorship, and the figure has to be consistent across every document. Please confirm the real number.
- ☐ **Anticipated start date**
Approximate is fine.
- ☐ **Why the role requires an armed officer**
A few sentences on the business need — the contract, the site, the risk. This is the substance of the letter of necessity (38 RCNY § 5-04), so your words are better than ours.
- ☐ **Company letterhead**
A digital copy, so the letter goes out on your own stationery.

IF YOU HAVE THEM

- ☐ **The current NYPD 20-hour worksheet** IF YOU HAVE IT
If ISS holds the current version, please send it. We want to work from the form you actually use rather than an older copy.
- ☐ **Your current letter-of-necessity format** IF YOU HAVE IT
If you have a format the License Division has accepted before, we'd rather follow it than invent one.
- ☐ **Firearm details** LATER IS FINE
Company-issued or personal, and if known: make, model, calibre, serial number, and the approved storage arrangement. **Only once the firearm is actually assigned** — there's no need to guess.

What we do with all this. Everything above goes into your own private portal, where the company forms are pre-filled from it — you review, correct anything, and sign. You won't retype the same detail twice, and you'll be able to see exactly where Chery's application stands at any point.

SEND IT FROM YOUR SIDE

Please pass licence numbers and custodian details directly from an authorised ISS representative rather than a directory or a search result. We won't use anything we can't attribute to you.

PARTIAL IS FINE TO START

The custodian confirmation is the one that unblocks the file. Everything else can follow while we get Chery moving on his side.
